

PLANNED MAINTENANCE PROGRAM

Rocky Mountains Distributing is offering a promotional program to ensure your frozen beverage equipment operates at peak performance. This program is specifically for Dutch Bros. Coffee and benefits the following Taylor models: 428, 341 and 342.

WHY PARTICIPATE?

MISSED MAINTENANCE ACTION

CONSEQUENCE

Not cleaning condenser	Average service call of \$350 + parts + lost sales
Not adjusting or replacing belts	Average service call of \$300 + parts + lost sales
Not inspecting & cleaning wearable parts	Average service call of \$250 + parts + lost sales
Not installing tune-up kits & replacing blades	Average service call of \$250 + parts + lost sales
Not re-tightening electric connections	Average service call of \$450 + parts + lost sales
Not replacing rear shell bearings annually	Average service call of \$350 + parts + lost sales

Reactive service can lead to unplanned downtime and could cost you up to \$1950 * per year!

*based on typical service rates and parts for associated repairs

ADDITIONAL DETAILS: These PM's have special labor rates that are valid from March 1st, 2020 thru to June 30, 2021 coupled with the special travel fee that allows for up to 2 hours travel from Denver, and 10% off factory list prices for wearable parts. Please allow thirty days from the date of registration for PM service. Extension of labor rates is at the discretion of Rocky Mountains Distributing.
